

MyPDConnect

Next Generation Online Reporting and Virtual Policing Solution

What is Virtual Policing?

Virtual Policing allows **more crime reporters to be served** without adding additional resources. Service online reports via scheduled virtual conferences via **Zoom Meetings** or **Phone Calls**.

"MyPDConnect and its Virtual Policing platform transforms the way we can respond to our community's needs. Victims of crime feel empowered to take control and connect with police in ways never seen before."

Chris Skinner, Chief of Police, Eugene Police Department

Divert Calls from Dispatch

Divert lower level calls to Online Reporting and Virtual Meetings allowing crime reporters to be served quickly and efficiently.

Support for over 100 Languages

Crime reporters can report in the language of their choice. All reports are translated to English for officer processing and responses are translated back to the reporting language.

Crime Analysis with Heatmaps

Built-in heat maps allow officers to see emerging crime hot spots in real-time.

QR, Text and Phone Access

Place a QR code on signs and vehicles for easy online reporting. Crime reporters can receive a text link providing instant access to online reporting.

Upload Pictures and Video

Crime reporters can upload unlimited Pictures, Video and Documents providing more complete crime reporting.

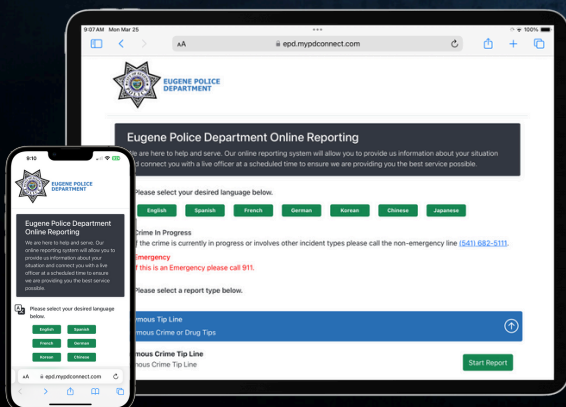

Satisfaction Surveys

Keep a pulse on effectiveness, performance and quality with optional surveys.

Mobile First Design

Designed with mobile devices in mind, our solution works equally well from smart phone, tablet or desktop.

Submit a report and upload supporting pictures and video right from your mobile device!
